EMPLOYEE'S ISSUE 04 • MARCH 2021

**HYPER
FILTRATION**

PORTABLE SEWAGE TREATMENT PLANT (GUJURAT)

This plant is based on fully automatic MBR (Membrane Bio-Reactor) technology to produce ultra filtered water without any chemical treatment. The unit is compact in design and only requires assembly on site with minimum man-power without any requirement of an RCC tank.

CAPACITY

300 KLD

PACKAGED DRINKING WATER PLANT (HARYANA)

It is a Reverse-Osmosis based water treatment plant where high TDS water of 8000 ppm is treated to create suitable TDS water for bottling use.

CAPACITY

27m³ Per hour

*"Let the colors of Holi spread
the message of peace and
happiness."*
