COVID- THE 2ND WAVE

It has been proven and seen that India was underprepared for 1st wave of corona virus in the dawn of 2020, but the 2nd wave has exposed the systemic & economic failure which was long due , due to negligence of our administration and general public too.

The 2nd Lockdown proves that we have failed to contained the virus from spreading on super speed, leading to another national shutdown, impacting the economic state of our country harder.

Business have been made to work with only 30% personnel which is nearly impossible considering the production and logistics in mind.

WHAT DOES THIS MEANS FOR PRIVATE BUSINESS FIRMS?

While all hope is not lost, as some operations have been allowed with limited personnel, this means businesses have to thrive on survival rather than earning profits, While it was hoped that things would get better in 2021 the situation has worsen since Feb-March.

We must comply with the said rules and work as we must, in order to get back in the game.

All of the Hyper Staff, at all of its sites and projects, have sworn to take measures and safety precautions to control the spread and thus not letting the operations come to a stand still.

Prevent the spread of COVID-19 in **7 STEPS**

- 01** Wash your hands frequently
- 02** Avoid touching your eyes, nose and mouth
- 03** Cover your cough using the bend of your elbow or a tissue
- 04** Avoid crowded places and close contact with anyone that has fever or cough
- 05** Stay at home if you feel unwell
- 06** If you have a fever, cough and difficulty breathing, seek medical care early — but call first
- 07** Get information from trusted sources

Wear A Mask

Message From the Director

These are unprecedented times, and sure that this battle has been going for more than a year now, but that never makes up for the loved ones we have lost during this pandemic.

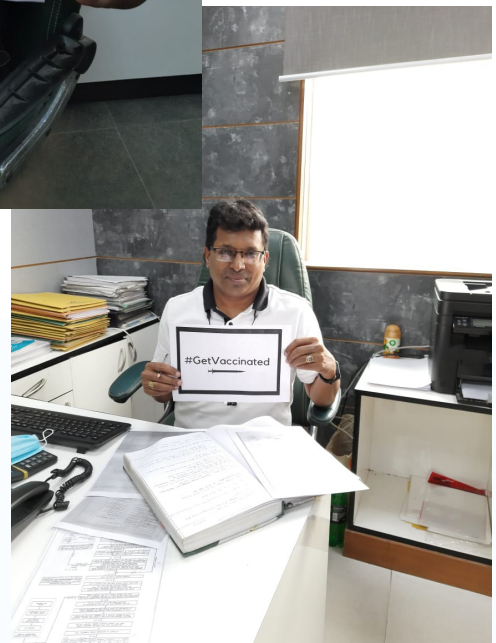

Hyper deeply feels the loss, and lends condolences and strength to the families and friends who lost loved ones and are grieving through it.

May the departed souls get a heavenly adobe!
